

IMAGING Prerequisites

PXE/DHCP Configuration

After installing and configuring your server, a document dedicated to setting up DHCP/PXE will be sent to you.

Imaging Workshop

Before scheduling your Imaging workshop, you need to prepare a few things:

- To create a clean image, you need a fresh Windows machine that hasn't completed the OOBE questions.

“ Start the installation of a Windows machine, and when the OOBE appears, cancel it using: `CTRL + SHIFT + F3`

- Have a few PCs ready for deployment.

We can also provide you with masters for certain Windows models; please let us know which Windows models you wish to deploy.
