

How to log in to Medulla

To access Medulla's features, you must log in with your credentials. This step ensures the security of your data and personalized access.

The image shows a login form for Medulla. At the top, there is a dark blue header with the Medulla logo, which consists of a stylized brain icon made of dots and the word "medulla" in lowercase white letters. Below the header, the form is white with a light blue border. It contains three input fields: a dropdown menu for language selection, a text field for the username, and a password field with masked characters. A dark blue "Connecter" button is positioned at the bottom of the form.

Login Steps

Choose your language

On the login page, select your preferred language from the dropdown menu. The default language is French, but you can change it if necessary.

Enter your username

Enter the username and password for a GLPI or LDAP account, depending on the provisioning method defined during the configuration of your Medulla server.

OR

Log in directly via your OIDC if it is configured.

Enter your password

In the Password field, enter your personal password. Make sure it is spelled correctly: uppercase and lowercase letters are distinguished.

Confirm the login

Click the "Log In" button to access your user account.

For security reasons, avoid saving your password on shared devices.

If you have trouble logging in, contact your organization's technical support
