

Manage start-up services

The screenshot displays the 'Gérer les services de démarrage' (Manage start-up services) interface. On the left is a sidebar menu with options like 'Menu de démarrage par défaut', 'Scripts de post-imaging', and 'Ajouter un profil'. The main area shows a table of 12 services. A search bar is located at the top right of the main area.

| Libellé | Description | Dans le menu de démarrage | Actions |
|----------|----------------------------|---------------------------|---------|
| continue | Continue Usual Startup | ✓ | |
| register | Register as Medulla client | | |
| backup | Create a Backup | ✓ | |
| diskless | Diskless Boot | | |
| memtest | Memory Test | | |
| dban | Shred Hard Drive | | |
| hdt | Hardware Information | | |
| reboot | Reboot | | |
| poweroff | Power Off | | |

Start-up services allow machines to launch an image from the network (e.g. via PXE).

To configure

- Side menu **Manage start-up services**

You can

- Enable or disable certain services
- Adapt startup to your environment
