

# Overall statistics

You have key indicators to evaluate the general status of your backups.

Statistiques globales						
Espace disque utilisé par tous les clients						Taille
All computers						0 B
Dernières activités						
Id	Nom	Date de sauvegarde	État	Détails	Durée H:M:S	Taille
Logs						
Message				Heure		

## Access:

### Review > Global statistics

- **Disk space used** : total size of backups on all clients
- **Active / Saved Machines**
- **Successful / failed backups**

Setting up a backup strategy is not just about avoiding data loss: it's about ensuring the continuity of your operations. With the platform, you can:

- Follow all activities in real time
- Visualize your overall efficiency via statistics
